

POT SIZING AND CUSTOM JOINERY

CUSTOM JOINERY SETUP

Open-top trough fitted with a watertight liner that extends 150 mm up from the base.

The overall height of the trough is 230mm

The trough is sized for 200 mm grow pots. A Coreflute mulch plate spans the opening, supporting each pot above the 150 mm-deep water reservoir so wicks can draw water upward for dependable sub-irrigation.

Core flute cut to size and ready for plants and mulch

STANDARD POT PLANT SIZINGS

1-2 Feet

200mm Pot

3-4 Feet

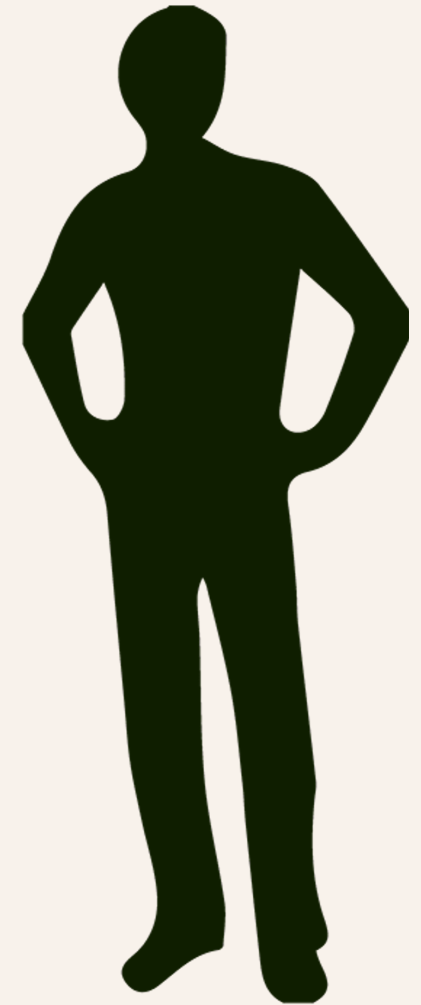

250mm Pot

4-5 Feet

300mm Pot

CUSTOM JOINERY SETUP

3 x 200mm Squat Pots are then added for a beautiful and sustainable finish

Standard 125mm Pot

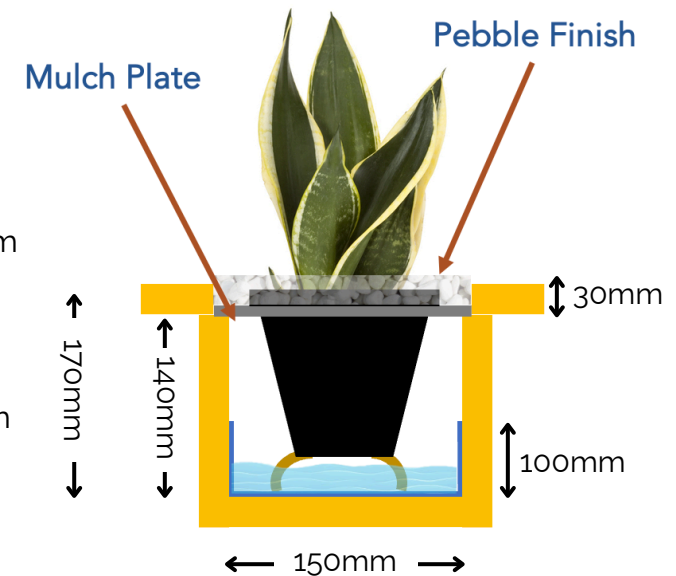

- External Diameter – 117mm
- Internal Diameter – 110mm
- Base Diameter – 95mm
- Height Total – 125mm
- Height to base of lip – 120mm
- Volume – 5.0 Litres
- Estimate Potted Weight – 5kg

125MM POT

Custom Joinery Specifications

- Mulch plate cutout hole – 110mm
- Recess Depth of Top Plate - 30mm
- Minimum Overall Depth - 170mm
- Minimum Internal Width - 150mm
- Minimum Internal Depth - 140mm
- Height of watertight liner - 100mm

130mm Squat Pot

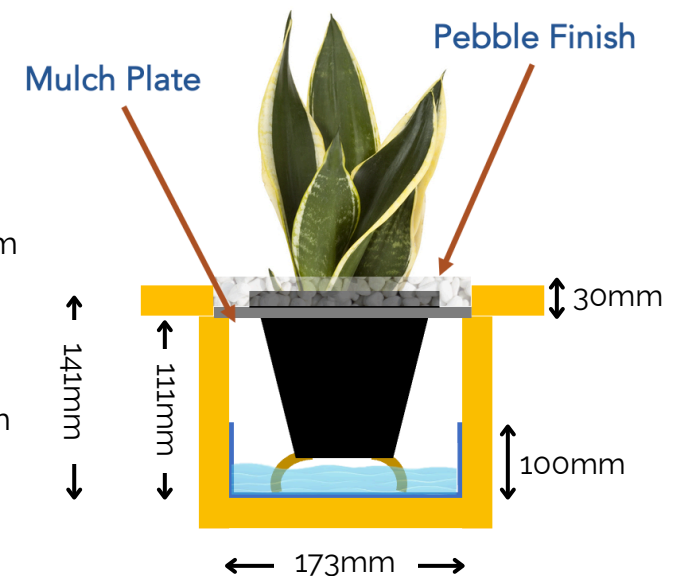

- External Diameter – 133mm
- Internal Diameter – 122mm
- Base Diameter – 100mm
- Height Total – 100mm
- Height to base of lip – 91mm
- Volume – 5.0 Litres
- Estimate Potted Weight – 5kg

130MM SQUAT POT

Custom Joinery Specifications

- Mulch plate cutout hole – 126mm
- Recess Depth of Top Plate - 30mm
- Minimum Overall Depth - 141mm
- Minimum Internal Width - 173mm
- Minimum Internal Depth - 111mm
- Height of watertight liner - 100mm

Standard 140mm Pot

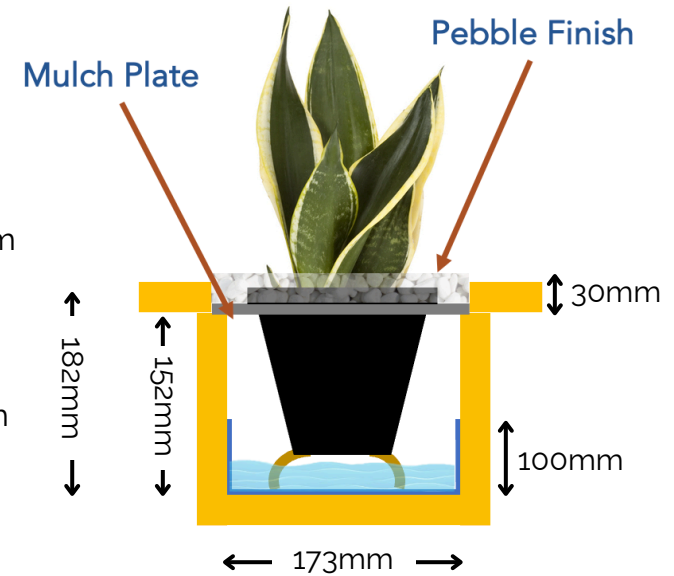

- External Diameter – 133mm
- Internal Diameter – 123mm
- Base Diameter – 105mm
- Height Total – 140mm
- Height to base of lip – 132mm
- Volume – 5.0 Litres
- Estimate Potted Weight – 5kg

140MM POT

Custom Joinery Specifications

- Mulch plate cutout hole – 125mm
- Recess Depth of Top Plate - 30mm
- Minimum Overall Depth - 182mm
- Minimum Internal Width - 173mm
- Minimum Internal Depth - 152mm
- Height of watertight liner - 100mm

165mm Squat Pot

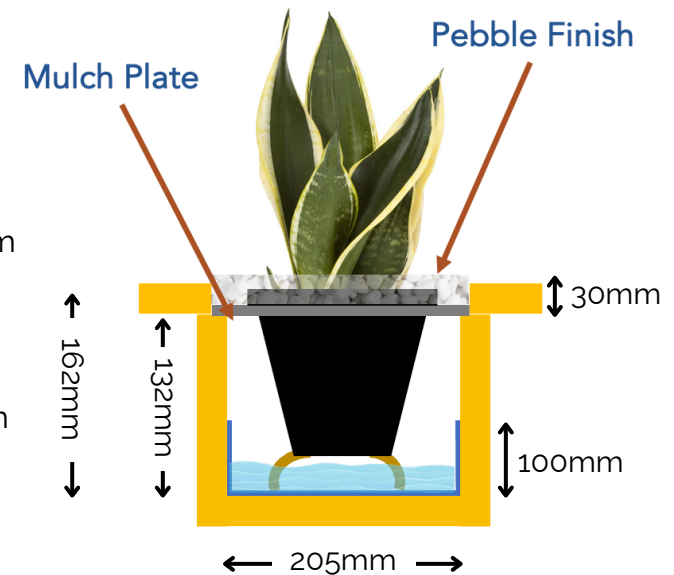

- External Diameter – 165mm
- Internal Diameter – 155mm
- Base Diameter – 130mm
- Height Total – 118mm
- Height to base of lip – 112mm
- Volume – 5.0 Litres
- Estimate Potted Weight – 5kg

165MM SQUAT POT

Custom Joinery Specifications

- Mulch plate cutout hole – 157mm
- Recess Depth of Top Plate - 30mm
- Minimum Overall Depth - 162mm
- Minimum Internal Width - 205mm
- Minimum Internal Depth - 132mm
- Height of watertight liner - 100mm

200MM SQUAT POT

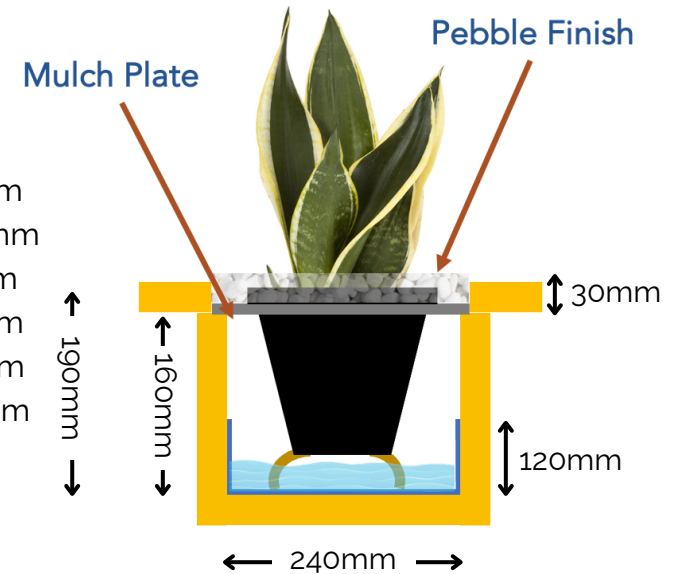

200mm Squat Pot

- External Diameter – 200mm
- Internal Diameter – 185mm
- Base Diameter – 155mm
- Height Total – 150mm
- Height to base of lip – 140mm
- Volume – 5.0 Litres
- Estimate Potted Weight – 5kg

Custom Joinery Specifications

- Mulch plate cutout hole – 193mm
- Recess Depth of Top Plate - 30mm
- Minimum Overall Depth - 190mm
- Minimum Internal Width - 240mm
- Minimum Internal Depth - 160mm
- Height of watertight liner - 120mm

200MM POT

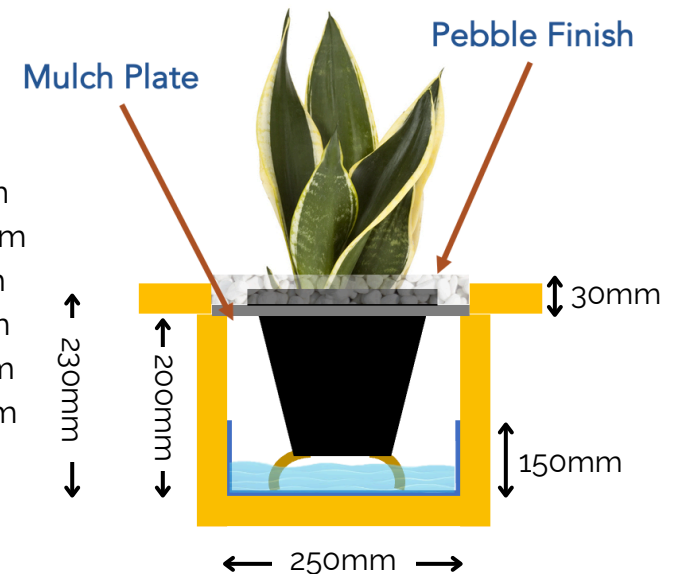

Standard 200mm Pot

- External Diameter – 205mm
- Internal Diameter – 192mm
- Base Diameter – 160mm
- Height Total – 190mm
- Height to base of lip – 182mm
- Volume – 5.0 Litres
- Estimate Potted Weight – 5kg

Custom Joinery Specifications

- Mulch plate cutout hole – 197mm
- Recess Depth of Top Plate - 30mm
- Minimum Overall Depth - 230mm
- Minimum Internal Width - 250mm
- Minimum Internal Depth - 200mm
- Height of watertight liner - 150mm

250mm Pot

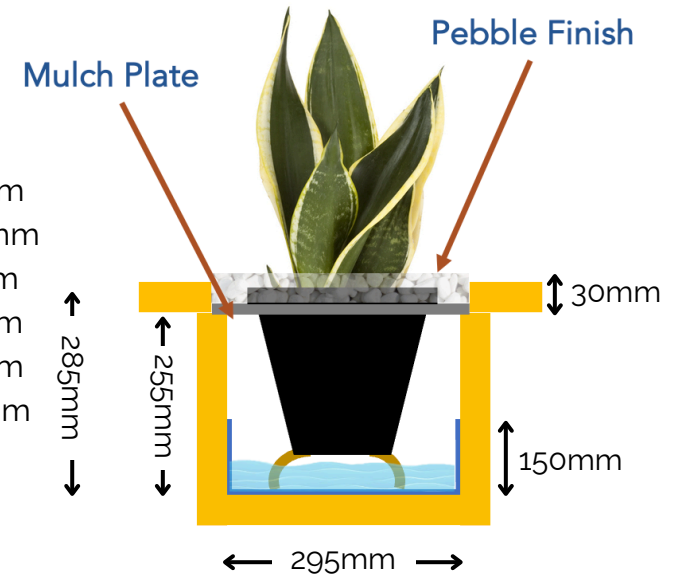

- External Diameter – 200mm
- Internal Diameter – 185mm
- Base Diameter – 155mm
- Height Total – 150mm
- Height to base of lip – 140mm
- Volume – 5.0 Litres
- Estimate Potted Weight – 5kg

250MM POT

Custom Joinery Specifications

- Mulch plate cutout hole – 253mm
- Recess Depth of Top Plate - 30mm
- Minimum Overall Depth - 285mm
- Minimum Internal Width - 295mm
- Minimum Internal Depth - 255mm
- Height of watertight liner - 150mm

300mm Pot

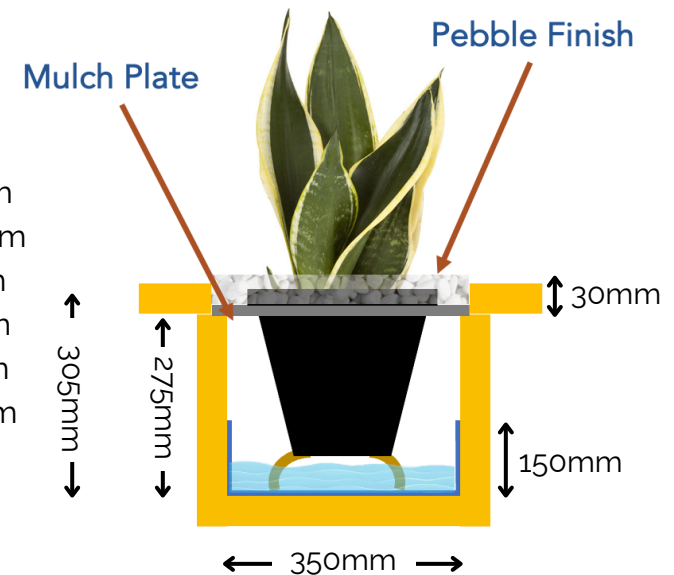

- External Diameter – 205mm
- Internal Diameter – 192mm
- Base Diameter – 160mm
- Height Total – 190mm
- Height to base of lip – 182mm
- Volume – 5.0 Litres
- Estimate Potted Weight – 5kg

300MM POT

Custom Joinery Specifications

- Mulch plate cutout hole – 295mm
- Recess Depth of Top Plate - 30mm
- Minimum Overall Depth - 305mm
- Minimum Internal Width - 350mm
- Minimum Internal Depth - 275mm
- Height of watertight liner - 150mm

400mm Pot

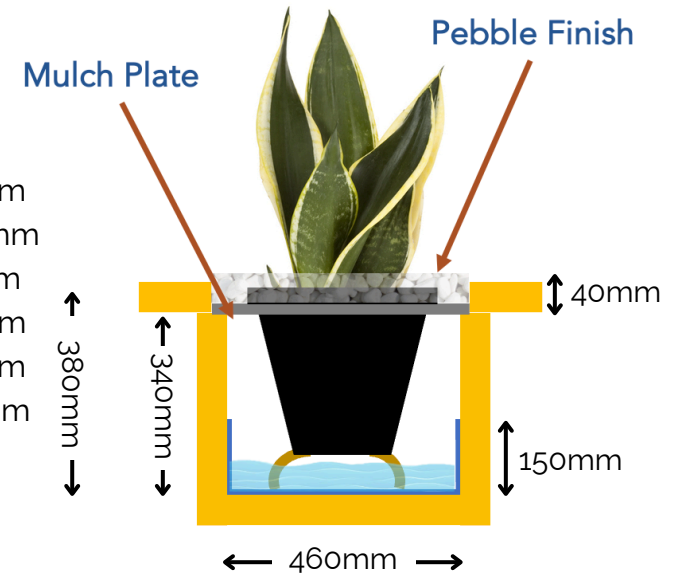

- External Diameter – 200mm
- Internal Diameter – 185mm
- Base Diameter – 155mm
- Height Total – 150mm
- Height to base of lip – 140mm
- Volume – 5.0 Litres
- Estimate Potted Weight – 5kg

400MM POT

Custom Joinery Specifications

- Mulch plate cutout hole – 395mm
- Recess Depth of Top Plate - 40mm
- Minimum Overall Depth - 380mm
- Minimum Internal Width - 460mm
- Minimum Internal Depth - 340mm
- Height of watertight liner - 150mm

500mm Pot

- External Diameter – 205mm
- Internal Diameter – 192mm
- Base Diameter – 160mm
- Height Total – 190mm
- Height to base of lip – 182mm
- Volume – 5.0 Litres
- Estimate Potted Weight – 5kg

500MM POT

Custom Joinery Specifications

- Mulch plate cutout hole – 460mm
- Recess Depth of Top Plate - 40mm
- Minimum Overall Depth - 172mm
- Minimum Internal Width - 205mm
- Minimum Internal Depth - 142mm
- Height of watertight liner - 100mm
